

# ISIS 2026

26th  
International Shock  
Interaction  
Symposium

November 15-18, 2026 | Hotel Susung, Daegu, Korea

## Welcome Message

The International Shock Interaction Symposium (ISIS) traces its origins to 1981, when the inaugural meeting was held in Canada under the name *International Mach Reflection Symposium (IMRS)*. Since its inception, the symposium has been successfully hosted in major cities around the world, culminating in its 17th meeting, held in 2004 on Jeju Island, Korea. Beginning with the 18th symposium in Rome, Italy, in 2006, the event was officially renamed ISIS and has since been held biennially, making substantial contributions to the advancement of shock wave dynamics and their diverse applications.

ISIS aims to provide a premier international platform for the dissemination and discussion of the latest developments in shock interaction research across a broad spectrum of disciplines, and it has consistently attracted leading researchers with a shared interest in shock interaction phenomena. The 26th ISIS, to be held this November in Daegu, Korea, will take place in a city widely regarded as one of the nation's educational hubs, where rich traditional heritage harmoniously coexists with contemporary K-culture. Daegu is expected to offer an engaging, comfortable, and intellectually rewarding environment for all participants.

We look forward to welcoming you to Daegu, Korea, this November.

Chairs of ISIS 2026  
**Rajesh G & Heuy Dong Kim**

## Key Dates

- ▶ Extended abstract submission deadline : **July 15, 2026**
- ▶ Acceptance of notification : **August 1, 2026**
- ▶ Early-registration deadline : **August 15, 2026**

# ISIS 2026

## Previous Symposia

Year	Host City	Country	Year	Host City	Country	Year	Host City	Country
1981	Victoria	Canada	1990	Freiburg	Germany	2008	Rouen	France
1982	Sydney	Australia	1992	Denver	USA	2010	Moscow	Russia
1983	Freiburg	Germany	1994	Victoria	Canada	2012	Stockholm	Sweden
1983	Melbourne	Australia	1996	Johannesburg	South Africa	2014	Riga	Latvia
1984	Sendai	Japan	1998	Beer Sheva	Israel	2016	Glasgow	UK
1985	Menlo Park	USA	2000	Sendai	Japan	2018	Kruger Nat'l Park	South Africa
1986	Beer Sheva	Israel	2002	Aachen	Germany	2022	Chennai (Hybrid)	India
1987	Albuquerque	USA	2004	Jeju Island	South Korea	2024	Delft	Netherlands
1988	Toronto	Canada	2006	Rome	Italy	2026	Daegu	South Korea

## Focus Areas

Abstract submission opens on May 15 (KST/ UTC+9)

Topics of interest include, but are not limited to

- 1 Fundamental Shock Wave Physics
- 2 Shock–Shock Interaction
- 3 Shock–Boundary Layer Interaction
- 4 Shock–Turbulence Interaction
- 5 Shock–Vortex Interaction
- 6 Shock–Interface Interaction and Instabilities
- 7 Shock–Multiphase Interaction
- 8 Shock–Reactive Flow Interaction
- 9 Shock–Structure Interaction and Fluid Structure Coupling
- 10 Shock Interaction in Complex Geometries
- 11 Shock Interaction in Heterogeneous and Stratified Media
- 12 Unsteady and Transient Shock Interaction
- 13 Data-driven and AI-based Shock Interaction

## Special Issue Publication

Outstanding papers presented at ISIS 2026 will be recommended for publication in **Shock Waves** and, following a rigorous peer-review process, will be published in a dedicated special issue.
